

HOES TEN HIGHER

Market Advanced Considerably Over Saturday.

TOP PRICE WAS \$5.35

Quality Yesterday Was Generally Common.

Hogs sold 5 to 10 cents higher yesterday, the majority of the sales, however, being made at the latter figure. The market opened at a nice nickel higher and fluctuated a trifle during the day. The reports from other markets were assuring and supported the advances made. The demand was good and everything in was sold quickly.

The high price of the year was again broken yesterday. Several good loads of packers sold for \$5.15. These, however, were practically the only good hogs in the bulk of the sales went at \$5.00 to \$5.10. Both the top and the bulk was the highest in the past five years. The bulk prices, considering the grade of the hogs, was exceptionally high.

The quality yesterday was generally common and not as good as most of the days last week. There were two or three good loads in and these brought the high figure. The quality was disappointing both to sellers and buyers.

The receipts yesterday were light for a Monday, although about the same size as a week ago. The season hogs, which were few in number, arrived early in the day and were out of the way by noon. The car lots came in quite early and the market closed an hour earlier than usual.

The market compared well with other western ones. Chicago quoted the market "active, strong to 10 cents higher." Kansas City said hogs were "strong to 7 1/2 cents higher." Louisville quoted the market as being "5 cents higher."

Fought Dyspepsia 25 Years. Found Relief at Last in Dr. Caldwell's Syrup Pepsin.

Bloomington, Ind., Feb. 20, 1899.

Pepsin Syrup Co.,
Gentlemen—After having given the Pepsin Syrup a fair trial in my family, I unhesitatingly pronounce it a great boon to all suffering from indigestion, constipation and dyspepsia in all their forms with all their train of evil consequences. I have fought dyspepsia and constipation of a severe character for 25 years, have employed the most skilled physicians that I could reach, have spent hundreds of dollars, and now I find more relief in this pleasant remedy than I have found in anything else. To all persons of sedentary occupations in life I wish to say, buy it and use it. I have spent 12 years at the postmaster's desk, averaging 14 hours per day, and I know now if I had had this remedy years ago it would have saved me much suffering. Respectfully yours,
W. M. McCoy, P. M.,
Bloomington, Ind.

From One of the Boys in Blue.

Decatur, Ill., Jan. 24, 1893.
Messrs—I received a gunshot wound in '94 while in the army, which caused a partial paralysis of the bowels, and from that time to the present I have had to use a laxative. I have tried a great many kinds of medicines in that time, but have never found any as effective or that has been as near natural as Caldwell's Syrup Pepsin. Yours truly,
JOHN ARMSTRONG.

Words of Praise From Working Woman's Home, Chicago, Ill.

Pepsin Syrup Co., Monticello, Ill.
Gentlemen: In reply to your inquiry as to the result of our experience with Dr. Caldwell's Syrup Pepsin, we will say that we have been using it in the "Working Woman's Home" for some time and find that it meets a long felt want.

As a laxative and remedy for all ailments of the stomach and bowels we have found nothing that works so well. In an institution similar to ours such a medicine is absolutely necessary, and we feel confident that it only needs a trial to convince one of the real merits of the remedy. We have found it invaluable in cases of sick headache and can heartily recommend it to all sufferers from such. Yours very truly,
DR. LUELLA DAY UNDERHILL,
Medical Sup't.

MAJORITY OF STOCKS DECLINE

New York, April 9.—The stock market made a disappointing response to Saturday's unfavorable bank statement by a general decline in all speculative ventures. The selling pressure was particularly marked in the case of the leading stocks, but with the exception of the banking and financial group, the market was not so generally depressed. The higher range of prices in London and an opening here above Saturday's level in sympathy did not have the hoped-for effect of checking the decline. On the contrary, the higher prices seemed to invite profit-taking and the opening gains were not long maintained. The acute depression manifested by Sugar had an additional influence in depressing the market. This morning's industrial gains during the latter part of the day of being overruled, and, after having fallen nearly 1 point, recovered more than half of the decline. The room traders who had sold the list on the strength of the weakness in Sugar were driven to cover by this rally and the stock market weakened on a few other points. As a consequence the closing was active and firm at a level considerably above the low point of the day, but showing a decline for the majority of stocks. London showed a disposition to buy stocks here, in spite of the stiffness of the London money market on the taking up of another installment of the war loan, but last week's large increase in loans here is generally attributed to large borrowings for London accounts to carry stocks here. Although the stock market weakened on the bank's showing, the money market failed to show any effect of the decrease in resources of the banks. Closing prices of stocks were as follows:
